L01: Understanding how ICT can be used to meet business needs

HW/1:	Research the meaning of the following Key Words , give examples where appropriate
	- Portable devices
	- Operating systems
	- Application software
	- Multimedia software
	- Storage devices
	- Magnetic media
HW/2:	Describe the following <u>portable</u> computer devices and state the features (i.e. word processing, voice calls, surf the internet etc.) of each. • Laptop
	Netbook
	Tablet
	Smartphone

1	
2	
3 4	
5	
Keyboard	most suitable for the tasks on the right. Surfing – clicking on links, icons
Mouse	Recording a song
Microphone	Writing a letter
Scanner	'Face to face' communication
Webcam	Capturing photos for editing
What is an output device? Lis Monitor, speakers etc. Includ 1	

HW/6: Match the task with the most suitable output device

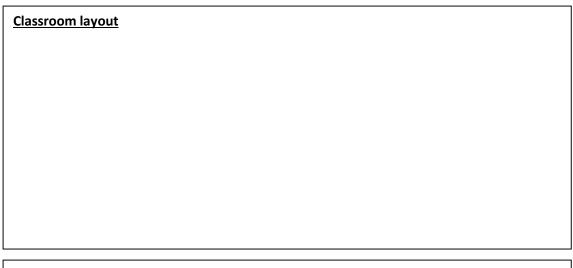

An output device which immediately lets you view what you have just input	Ink Jet Printer
The printer which would output pages the fastest	Speaker
The printer which would let you print carbonated copies	Monitor
The best printer if you only want to print in colour occasionally	Laser printer
The best output device for printing large posters or architect's blueprints	Dot matrix printer
The most appropriate output device for sound	Plotter
W/7: Which Application Software is most suitable Writing a letter	
Making calculations/creating charts and g	raphs
Store/query and generate report	
	
Sending email/receiving email	
Sending email/receiving email Creating publications such as leaflet, flyer	etc
	,
Creating publications such as leaflet, flyer	,
Creating publications such as leaflet, flyer Making presentations with images and te	,

HW/8: Web browsers are use to surf the internet, compare the two **web browsers** below, list and explain the features, discuss any drawback (bad features) of each web browse.

	Internet Explorer 7	Google	Firefox*
Name of browser:			
Security i.e. popup blocker:			
Compatibility i.e. can be used on all computer, can open all documents:			
Speed i.e. how quickly it opens a document, download a file, load a videos etc:			
Ease of use:			
Features i.e. spell check:			
Other good features			
Bad/poor features			

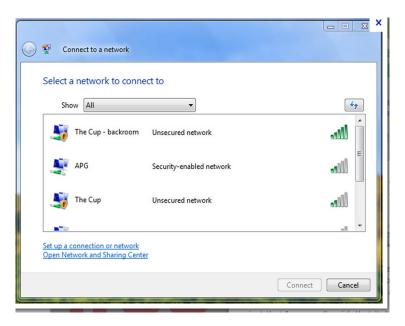

HW/9:	Research the maximum storage capacity of the following storage devices
	- Optical discs (CD/DVD)
	- Magnetic media (internal and external hard disk drives)
	- Solid state drives
	- Memory cards
	- Network devices
	- Cloud storage

HW/10:	Sometimes an organisation finds that 'off-the-shelf' software will not do exactly what				
	they want. In this case they might decide to have special tailor-made , or bespoke software specially developed for the purpose.				
	software specially developed for the purpose.				
	a) List three advantages of 'off-the-shelf' software				
	i)				
	<i>''</i> 1::				
	ii)				
	iii)				
	b) List three advantages of "tailor made" software.				
	i)				
	·				
	ii)				
	"/"				
	iii)				
HW/11:	Find three publications on the development of computer technology that enables				
•	people with sight or hearing disability can use. (Visit the BBC archive or www.teach				
	ict.com)				
HW/12:	Draw a layout of an ideal ICT room, your room should include the following devices				
	20 student computers				
	1 teacher computer				
	1 colour printer				
	1 black and white printer				
	• 1 scanner				
	1 interactive white board				
	Describe how the peripherals (printers, scanner) are connected to the computer devi				
	wired method (e.g. USB Fire wire) or Wireless methods (e.g Wifi, Bluetooth, infrared),				
	give reason for your answer.				

Connection description and reason

HW/13: Wireless network and connectivity

- a) Identity the names of each wireless network above _____
- b) Which network required a security key?_____
- c) What is the difference between public and private network?

HW/14:	Writ	te a clear "how to guide" on how to connect to an existing wireless network.
HW/15:	eith plan duri	Thompson is an ICT teacher who has to teach GCSE to students who are terminally ill er at home or in the hospital. The school is unsatisfactory with her progress and is uning to monitor her location to know which student she is with, the sites she visits ng working hours and who she communicates with using the school's mobile phone. how will you monitor Mrs Thompson Location, internet use and communication
	b)	what hardware and software would you consider to monitor the above tasks

ICT in Business Keywords

L02: Know how to work with information and data to meet specified business needs

HW/17:	Research the meaning of the following Key Words , give examples where appropriate					
``	- sensors					
	- data					
	- forms					
	- data capture					
	- validation					
	- database					
	- bandwidth					
	- back-up (data)					
	- recovery (data)					
HW/18:	any written text),	ring methods of capturing data (gathering letters, numbers, barcode, give at least one advantage and one disadvantage of each				
	 automated 	data capture methods i.e. barcode reader				

HW/19: Capturing Data - Use the words in the list below to complete the sentence

Software, automatic, written, optical, paper, scan, form

a)	A bar code reader uses visible red light to and read a barcode
b)	An optical mark reader is a scanning device that reads carefully placed pencil
	marks on a specially designed or document.
c)	The based method is the most commonly use method of
	collecting or capturing data.
d)	An Optical Character Recognition system consist of a normal scanner and
	some special the scanner is used to scan the text from a
	document into the computer.
e)	The character recognition is used to automatically recognise
	postcodes on letters at sorting offices
f) T	here are many methods which can be used to collect and enter data, some manual and some
g)	A speech recognition software is also an example of automatic data entry. T
	he software listens to the speaker then translates the information into
	words.

HW/20: You are the recruitment officer at the Job Centre, on a daily basis you receive a number of online and paper based application for organisation. Use the variables below to evaluate which method is most suitable to process the information. Give reasons for your answer.

	Online application	Paper based
		application
	Apply Online Start the Application Process Today Start Here	Application Form
Which option is more costly for the business? why		

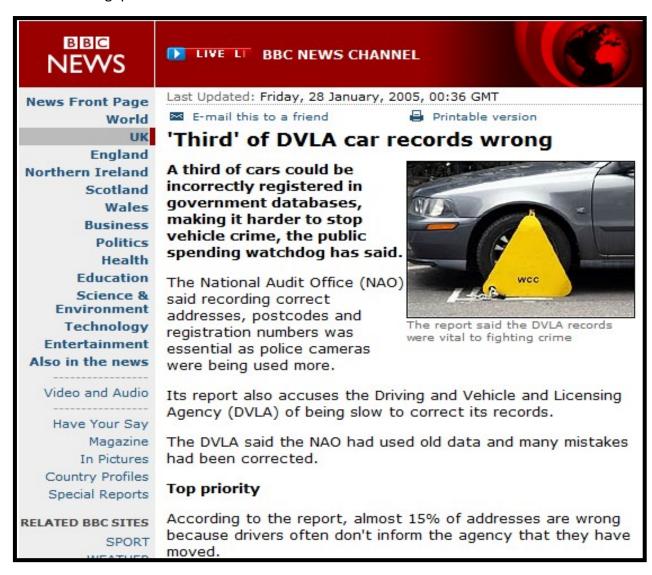

Which option is economically friendly? why	
Which option is easier to use for the applicant? Why?	
For which option is data more secure? Why?	
Which option allows data to be processed quickly? Why?	
Which is easier to store/maintain ? Why?	

HW/21: Create a **questionnaire** to gather personal information about new students. When creating this questionnaire you must consider the **audience** and **purpose**, your questionnaire must capture the following data. Use the template below.

Gender, Age, Personal details i.e. Date of Birth, Contact details, Hobbies, Future plans (careers or further education), Any other relevant information.

<u>Questionnaire</u>

HW/22: Database **design** and **Validation** - Read the BBC extract above and answer the following questions.

a)	extract above?
b)	As a database developer how can you ensure that the information in a database is
	correct and up-to-date?
c)	How do you think the DVLA rectify the above problem?

esearch the following questions.							

HW/24: The local zoo has created a **database** to store records about each of the animals. A copy of their main table looks like the one below

Hint:Fields - (Column heading), Records (information in an Rows)

Animal Breed	Name	Gender	Age	Food
Giant Panda	Pongo	М	8	Bamboo
Giant Panda	Bongo	F	7	Bamboo
Penguin	Pingu	М	5	Fish
Lion	Hermes	М	4	Fresh meat
Lion	Tarsa	F	4	Fresh meat
Crocodile	Spike	М	7	Fresh meat
Gorilla	Gemella	F	122	Fruit
Zebra	Stripey	М	8	Grass
Snake	Leyla	F	2	Live mice
Parrot	Robina	F	25	Nuts and seeds

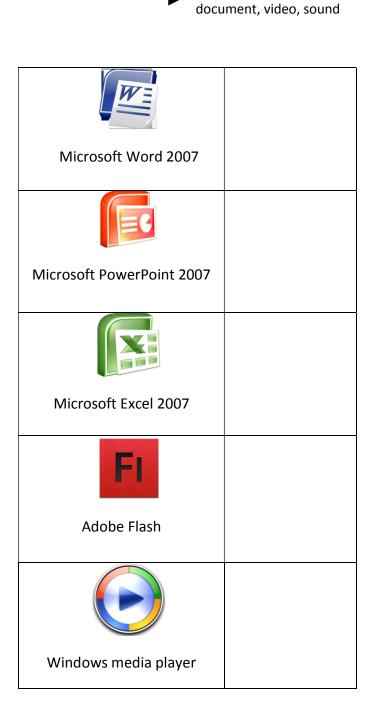

a)	How many fields are there in the zoo database?
----	--

b) How many **records** are stored in the database?

c)	One of the fields has been sorted into ascending order. Which field is it?
d)	One item of data in the database looks incorrect. Which one do you think it is?
e)	Explain your answer
f)	How many animals are there in the database which are female?
g)	Give the names of the animals which eat fresh bamboo?
h)	Give the name of the animal which eats fresh meat and is female?

HW/25: The following are file format for storing data match the following **application** with the **proprietary** format. You must also write what objects or combination of objects each **software** produce.

Write what is produced i.e.

Software

.xls
.docx
.pptx
.wma
.fla

Match the file format

HW/26: Select six of the following open file format and state what the **extension**means, state the type of date and the application that can open this document.

Open format	Application that can be	Type of data that can be
	used to open this file format	stored in this file.
.pdf	e.g. PDF files are can be	PDF files contain text and
	open in with adobe PDF.	images.
	Web browsers can also	
	open PDF files.	
.rtf		
.CSV		
.exe		
.txt		
.mp3		
.wav		

HW/27: Data **storage technologies**word search

L03: Know how ICT can be used to support business working practices

HW/33: Explain the following method of **communication** in **businesses** for each, give an advantage and a disadvantage

Communication	Description	Benefits	Drawbacks
method			
Email			
Eman			
Chatuaan			
Chat room			
Forums			
Bulletin Boards			
\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\			
Voice over IP (VoIP)			

Video conferencing		
Webcam		
Blogs		
Social networking		

HW/34: Identify the following section of an email and say why each is important

HW/35: Compare the following electronic and paper based diary. Include the following in your comparison. **Ease of use**, storage, finding information, organisation,

Paper based diary	Electronic diary

	1

method o	f sharing documents.
•	Network shared area (e.g. read/write access like the W drive)
	,
•	Cloud based services (e.g. open or restricted access to files)

How can documents be created and edited collaboratively. Describe the following

HW/36:

HW/37: Know how ICT can be used to support **business** working practices word search.

Business working practices Keywords

L04: Understand how legal, ethical, safety and security issues affect how computers should be used

HW/38:	Give a brief description of the following legislation and state how each can affect business computer users.
	Health and safety
	Data protection
	Copyright
	Computer misuse
HW/39:	Create a poster to provide information to computer users about cyber bullying . Your poster should include the following
	What is cyber bullying, How it can affect people, How to prevent cyber bullying, Relevant images, charts, quotes, statistics etc

HW/40: It is considered unethical for organisation to monitor their employees without their knowledge. Give an example of then the following monitoring/tracking techniques should be used.

	Organisation	Why monitor
	type/ example	
Van la seine	a a Duiana	
Key logging	e.g. Prisons	e.g.Unauthorised possession of keys
		may lead to the freedom of prisoners
Worker call		
monitoring		
Electronic consumer		
surveillance		
Mobile phone		
triangulation		
Worker call		
recording		
1.000.01118		
Cookie monitoring		
Cookie monitoring		
	l	

HW/41: Below are **threats** to the **security** of data, you must explain the impact of each threat and what can be done to remove them

Threats	Impact of the treat	Action to remove threat
Computer virus		
Phishing		
Spyware		
Adware		
Hacking		
Tracking		
Physical treats (loss or theft of devices)		
,		

HW/42: The **implication** and **consequences**data loss, corruption and theft. Read the article above then answer the questions below.

b) How does this affect customers? i.e. (reduce confidence in the

bank)

c) What is the impact on the employees of the bank? i.e. (disciplinary action for not following company procedure)

d)	What are some of the ways to reduce identity
	theft?

HW/43: The use of **protection software** such as anti-virus, anti-spam etc. Research and compare three protection software brands using the criteria below.

		(Protection	(Protection
		software 2)	software 3)
	AntiVirus 2012 with Antispyware	Software 2)	Software 37
	Norton by Symantec		
	Q _{len}		
	Norton		
Ease of use (scanning,			
fixing and understanding			
security risks)			
Effectiveness – how well			
does it protect your			
computer			
Features - anti-virus,			
anti-work, anti-spyware			
etc			

Compatibility - can it be		
used on all operating		
system.		
Help and support –		
phone support, chat		
support, email support		

HW/44: Automatic update - Look at the image below then answer the question that follows

a)	What is the purpose of the message? And Why is it important?
b)	What are the consequences of ignoring messages such as the one above

HW/45: Understand how legal, ethical, safety and security issues affect how computers should be used.

	legal and ethical issues Keywords														
U	Р	R	0	Т	E	C	Т	I	0	N	A	В	N	N	LEGAL MISUSE

2.	Write a short essay explaining the types and dangers of malware on smartphones
	http://www.bbc.co.uk/news/technology-36744925
	VIRUS ALERT
	ALERT ALERT

3. Produce a summary report discussing the features and functions of three leading Operating Systems in the mobile phone market.

Write a conclusion on which Operating System you think performs the best and why.

http://www.trustedreviews.com/opinions/which-mobile-operating-system-is-best

Operating Systems Mac Windows Android los Linux Tizen Debian C	

4. Cloud based storage is becoming more and more popular. What are the risks and benefits of using cloud storage?

https://en.wikipedia.org/wiki/Cloud_storage

-			

EXT TASKS:

Create posters using MS Publisher on following topics:

- 1. Computer legislations DPA/GDPR, Copyright design and patents act, Computer Misuse act and another act of your choice. You need to make the poster informative and creative so that future 7 and students can use it to learn from it.
- 2. Bitmap Vs Vector graphics with examples
- 3. Online safety tips for parents
- 4. Green IT How schools can adopt a greener way of using IT around the school.
- 5. Social Network FAKE NEWS all about social network and how to be responsible
- 6. Digital FOOTPRINT
- 7. Computer storage devices
- 8. Computer networks LAN and WAN
- 9. Choose any topic of your choice related to IT and Computing

For all the posters above your target audiences are future year 7s and 8s – use appropriate images and suitable language as well as engaging and creative design skills to attract attention.

NOW COMPLETE AS MANY <u>UNITS</u> AS YOU CAN ON <u>TEACHICT.COM</u>

Choose KS3 courses and select your year once you have logged in.

Choose a unit in any order and work through the tasks
