## Uncover Engineering: Year 10 Residential Programme

Uncover is a residential programme that gives girls and Black African and Caribbean heritage students in year 10 the opportunity to explore maths and physics subjects in the context of Engineering studies, while offering a glimpse into university life.

The programme is run by Oxford University and students will stay in a college for 4 days. Days will be filled with engineering-focused activities and workshops organised by the Department of Engineering Science.

In the evenings we have arranged recreational activities and social opportunities with other like-minded future engineers.

You'll also find out about life at Oxford and living in a college (including a formal dinner!). On the final day, we hope that your parents will join us to learn more about studying engineering at a university like Oxford.

**Free residential opportunity for Y10 students as part of Oxford University's Uncover Engineering programme.**

Application close on 31 January 2024 and need to be completed by the student.
