

Professionalism - Inclusion - Pedagogy - Curriculum

Personal Development

The school consistently promotes the extensive personal development of pupils. The school goes beyond the expected, so that pupils have access to a wide, rich set of experiences. Opportunities for pupils to develop their talents and interests are of exceptional quality.

Leaders adopt or construct study programmes that are ambitious, appropriately relevant to local and regional employment and training priorities and designed to give sixth-form students, particularly those with high needs and the most disadvantaged, the knowledge and skills they need to succeed in life.
